Understanding Seat Selection and Ticket Class

Seat selection availability depends largely on the class of ticket you purchase. Here’s a breakdown of the different ticket types and their seat selection options:

- **Economy Class**: For standard economy tickets, seat selection may be available but often comes with an additional charge. Basic Economy fares typically do not include free seat selection, and you may have to pay extra for your preferred seat, such as a window or aisle seat.
- **Premium Economy / Business / First Class**: Passengers who book premium or higher classes of service typically enjoy free seat selection as part of the package. Depending on the airline, you may even be able to select from premium seats with extra legroom or lie-flat options.

- **Flexi / Fully Flexible Tickets**: If you book a more flexible ticket, you're more likely to enjoy free seat selection or the ability to change your seat with fewer restrictions. 📞 1-855-452-1936
